Assembly Manual for Pibow Coupe Enclosure for Raspberry Pi Model B+

Tips:

1. This product contains small parts, not suitable for young children.

2. Take care when removing the protective plastic and assembling as individual pieces can be fragile if bent.

3. Please follow these instructions carefully and stack in the exact orders and directions marked on the picture.

4. Do not block the ventilation ports.

5. Max. Operating Temperature: 75°C
